

COMMERCIAL.

TUESDAY, October 14.
A considerable improvement in the local trade is admitted on all sides, and an increase in orders from the other islands has created a feeling of satisfaction among the merchants. The tables of exports for the third quarter of the year previously published in the columns of the P. C. ADVERTISER, and reproduced in to-day's weekly ADVERTISER, show a considerable increase in the export of our local products.

The Commercial Herald of the 25th ult. says:—"The sugar market is largely stocked with Hawaiian, and by reason of late purchases of raw, the entire stock of Island is now in the hands of refiners, and they too have purchased the entire crop of same, now being gathered, the price of it to be fixed upon its arrival here (S.F.). The price of refined sugars unchanged, while that of golden syrup favors the buyer."

Hawaiian rice is the turn dealer by reason of a lessened supply. Not so with China—Siam, which is in large stock, and prices in favor of the buyer."

The arrivals for the week consist of the Calbarien, Claus Spreckels, and O S S Mariposa from San Francisco, the bark Emerald from Puget Sound, and the brig Hazard from the South Sea Islands with 82 laborers.

The departures were the Eureka for San Francisco, and the Japanese corvette Tsukuba for Japan. The S S Mariposa sails to-morrow. The vessels on the berth for the Coast, and the bark C R Bishop, brig Claus Spreckels, bark Calbarien, Forest Queen and Emerald. The destination of the French S S Bordeaux is not yet fixed.

By the S S Mariposa news of an encouraging nature was received from Japan in regard to the new line of immigration. The Planters' Labor and Supply Company will open their annual meeting on Monday next, when probably they will give full expression to their feelings with regard to the important matters of immigration for the purposes of labor and re-population.

Messrs. Williams, Dimond & Co's circular, also the quarterly export table of domestic produce will be found below:

THURSDAY, October 9.

he following is Messrs. Williams, Dimond & Co's monthly circular to hand per Mariposa:

SAN FRANCISCO, Oct. 1, 1884.

DEAR SIR,—Our last circular was dated Sept. 15th, per Alameda.

SUGAR—The New York market as per mail advices of the 24th ult., was quiet and steady for Muscovades. Centrifugals dull and held at 5 1/2 cents for 96 per cent. test.

Demand moderate, consumers still unwilling to purchase in excess of their actual requirements.

M. Licht estimates the Beet crop at over 200,000 tons in excess of last year, and the effect has been to demoralize the European markets, causing English owners of sugars in the United States to force sales, and not withstanding the fact that refiners East of the Rocky Mountains have thus far this year melted up and distributed over 122,000 tons more of raw sugar than they did during the corresponding period last year, or an increase of 20 per cent., the tendency would seem to be towards a still lower range of values.

However, as the season advances, the estimates of Beet production may be reduced and further more it is a question how far the increase may be offset by the reduced production of cane sugar.

Liverpool exchanges of September 8th, report as follows:

The demoralization of buyers is complete. There is little or no speculation and neither refiners nor the country trade hold large stocks. At this time last year when prices were 85 to 95 higher, large purchases of Java to arrive, receded from the idea of entering into transactions for forward delivery.

During August, stocks decreased 13,000 tons in U. K.
Cable advices from Manila of September 15th, quote Extra Superior at £11 10s. c. & f.

RICE—On the arrival of steamer Mariposa and bkine W. H. Dimond, 1200 bags were sold by one importer @ 5 1/2 cents cash, others holding for higher price. This distribution checked advances for the time, but during the last few days price has reached 5 1/2 cents. If receipts per Alameda are not heavy, this price may hold and even rise higher, but 5 1/2 cents must necessarily be the limit in the present state of the market, and way the article is handled.

FLOUR—Extra Family, \$4.40. El Dorado, \$3.15.

LIME—\$1.50.

OATS—Fair, \$1.50. Medium, \$1.40. Choice, \$1.60. f. o. b.

BRAN—18 1/2, f. o. b.

BARLEY—No. 1 feed, 90 cents, f. o. b. GRD

BARLEY, \$20, f. o. b.

HAY—Compressed, \$14 to \$15 1/2, f. o. b. Large

Bales Wheat and Oat, \$14 to \$15 1/2, f. o. b.

CHARTERS—English advices have improved somewhat, yet the demand for tonnage has not been active. Last charter wooden, 34s. 6d., Liverpool direct. Iron, 45s., Cork, U. K.

Tonnage appears steadily held.

EXCHANGE—London, 60 days sight, 49 1/2. N

Y., sight 1/2 per cent.

ARRIVALS—Sept. 16; bkine Discovery, schr Anna, schr Rosario (Kahului). Sept. 22; schr Mariposa, bkine W. H. Dimond. Sept. 23; bkine S21a. Sept. 29; schr Eva.

What is this Disease that is Coming Upon Us.

Like a thief at night it steals upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach, which food does not satisfy.

The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at time; the blood becomes thick and stagnant; the whites of the eyes become tinged
